

*Measurements is not just our name, it is our Passion*

Breaking down your measurement barriers. Measurements International has been extending the limits of electrical measurement performance for nearly 30 years. We can help you achieve the better measurement practices that your goals and quality systems need.

Metrology, the science of measurement, is the foundation for the improvement of the Quality of Life. Since 1987, Measurements International has been a premier supplier of high accuracy metrology based calibration equipment for DC Resistance, Voltage and Temperature applications as well as standards for AC Power applications.

For an overview of our products and services, please look at our electrical metrology products guide and our high resistance metrology products guide. They are available at our [website](#) or you may request them [here](#).

*Metrology is Our Science, Accuracy is Our Business™*
